

The Innovative Association for Modern Metal Free Implant Treatment Concepts

The INTERNATIONAL SOCIETY OF METAL FREE IMPLANTOLOGY e. V. (ISMI) was established in January 2014 in Constance (Germany) with the aim of promoting metal free implant dentistry as an innovative and particularly future-oriented direction within implantology. In this context, ISMI supports its members with training & education opportunities as well as with regular expert and market information. In addition, ISMI campaigns in their public relations, i.e. in circles of experts as well as in patient communication, for a comprehensive establishment of metal free implant treatment concepts.

President: Prof. Dr. Dr. Frank Palm

Secretary-General: RA Jörg Warschat LL.M.

ISMI Membership Advantages

- **Patient Advertising and Public Relations**

Benefit from a strong community supporting your clinic marketing by its public relations.

- **Member Homepage**

Use your own individual member homepage, which ISMI provides to all active members free of charge. The ISMI patient platform not only contains information for patients, but it also features a dentist search which forwards the patient to the individual member homepage.

- **Specialist Online Archive and Chat "Metal Free Implantology"**

Available via the ISMI homepage you have exclusive access to the specialist online archive and to the chat "Metal Free Implantology". Discuss with experts and colleagues any questions about metal free implant dentistry.

- **Reduced Congress Fee**

Visit the annual meeting of ISMI and take advantage of the programme of advanced trainings offered by our partners, where members of ISMI benefit from reduced participant fees.

- **Newsletter**

The ISMI newsletter will inform you regularly about the latest scientific trends, products and events. At the same time you will receive information about user reports and tips about metal free implant dentistry.

Take advantage of the benefits of the ISMI membership. Be part in the implementation of future-oriented concepts in modern implant dentistry within an innovative community.
